

American Clean Power Association

Powering America's Future

ACP is the voice of companies from across the clean power sector that are providing cost-effective solutions to the climate crisis while creating jobs, spurring massive investment in the American economy and driving high-tech innovation across the United States.

Our Mission

The American Clean Power Association enables the transformation of the U.S. power grid to a low-cost, reliable and renewable power system. By uniting the power of wind, solar, transmission and storage companies and their allied industries, both public and private, we are championing policies that enable the continued and aggressive growth in renewable energy in the United States.

Our Vision

LEVERAGE

our larger geographic and economic footprint.

RESPOND

to the external environment quickly.

INCLUDE

all sectors, business models and aspects of the renewable energy value chain.

INTEGRATE

501(c)(3), (c)(4) and (c)(6) for maximum impact.

Uniting the power of the renewable energy industry.

TRANSITIONING TO A MULTI-TECHNOLOGY TRADE GROUP CREATES A WIDE VARIETY OF BENEFITS, INCLUDING:

INCREASED MARKET SHARE:

By diversifying our membership, we increase the pool of resources at our disposal while expanding our industry's economic footprint—providing opportunities to further expand your business and grow your network.

HIGHER RETURN ON MEMBER INVESTMENT:

By investing our time and resources into one cohesive effort, we can maximize our industry gains and collective return on investment with more robust conferences and industry resources.

BROADER INFLUENCE:

Having a voice that represents the unified renewable energy industry view will make it easier for policymakers and the broader public to understand the scale and strength of the industry, along with the benefits it creates, boosting support for our objectives.

cleanpower.org

Policy Principles

Expand demand for renewable energy technologies at the national, regional and state level.

Remove barriers of entry through regulatory, permitting and siting reforms.

Establish long-term market certainty to ensure increased investment and manufacturing of renewable energy technologies.

Invest in a national electric grid that is reliable, secure, clean, and designed for a renewable future.

Develop a robust, stable, and diverse renewable energy workforce.

Member Benefits

Information and best practices exchange with other leaders in key industry sectors through participation in committees and interest groups.

Exclusive policy briefings, networking opportunities and invitations to attend and present at premier industry events like the annual CLEANPOWER Conference & Exhibition.

Access to proprietary industry data and tools that can help inform and grow your business.

A voice at the table for the most important policy decisions facing our industry.
