

New Offshore Wind Leases Will Drive Economic Growth and Job Creation

BOEM's Offshore Wind Leasing Path Forward 2021-2025 could:

- Generate up to **\$4.5 billion in new federal revenue**
- Support **40 GW of new offshore wind projects**. This would represent over \$120 billion of clean energy investment
- Support **128,000 jobs** during construction of the projects
- **Create an additional 48,000 jobs in operations and maintenance roles**, in the supply chain, and in surrounding communities for the life of the projects
