

Alabama

GROWING ALABAMA'S ECONOMY

Clean energy investment is estimated

to add **\$36 billion**

to the state's economy from 2025-2035

Due to federal programs and clean energy tax credits, a new report—commissioned by ACP and conducted by ICF—estimates the American energy industry will deliver significant economic growth and job creation to Alabama.

2025-2035 Forecast for Alabama

Delivering Jobs

251,900 FTEs¹

● Transportation	130,700
● Power Sector	64,600
● Buildings	32,700
● H2	<100
● Sustainable Aviation Fuel	1,100
● Manufacturing	34,200

The package of energy tax incentives, grants, and other programs creates tremendous opportunities for job creation and economic growth.

From 2025-2035, the IRA is estimated to deliver **251,900 FTEs** across Alabama—or around **22,900 jobs** per year.

Boosting Income

\$15 billion

in additional income for Alabamians

Promoting Spending in Alabama's Economy

\$73 billion

of spending resulting from investments in American energy infrastructure
