

Mississippi

GROWING MISSISSIPPI'S ECONOMY

Clean energy investment is estimated

to add **\$18 billion**
to the state's economy from 2025-2035

Due to federal programs and clean energy tax credits, a new report—commissioned by ACP and conducted by ICF—estimates the American energy industry will deliver significant economic growth and job creation to Mississippi.

2025-2035 Forecast for Mississippi

Delivering Jobs

130,200 FTEs¹

● Transportation	65,200
● Power Sector	26,300
● Buildings	16,800
● H2	4,200
● Sustainable Aviation Fuel	5,500
● Manufacturing	12,200

The package of energy tax incentives, grants, and other programs creates tremendous opportunities for job creation and economic growth.

From 2025-2035, the IRA is estimated to deliver **130,200 FTEs** across Mississippi—or around **11,800 jobs** per year.
