

New Hampshire

GROWING NEW HAMPSHIRE'S ECONOMY

Clean energy investment is estimated

to add **\$7 billion**

to the state's economy from 2025-2035

Due to federal programs and clean energy tax credits, a new report—commissioned by ACP and conducted by ICF—estimates the American energy industry will deliver significant economic growth and job creation to New Hampshire.

2025-2035 Forecast for New Hampshire

Delivering Jobs

45,100 FTEs¹

● Transportation	25,000
● Power Sector	2,100
● Buildings	13,700
● H2	<100
● Sustainable Aviation Fuel	100
● Manufacturing	10,000

The package of energy tax incentives, grants, and other programs creates tremendous opportunities for job creation and economic growth.

From 2025-2035, the IRA is estimated to deliver **45,100 FTEs** across New Hampshire—or around **4,100 jobs** per year.
