

South Dakota

GROWING SOUTH DAKOTA'S ECONOMY

Clean energy investment is estimated

to add **\$9 billion**

to the state's economy from 2025-2035

Due to federal programs and clean energy tax credits, a new report—commissioned by ACP and conducted by ICF—estimates the American energy industry will deliver significant economic growth and job creation to South Dakota.

2025-2035 Forecast for South Dakota

Delivering Jobs

75,800 FTEs¹

	Transportation	23,200
	Power Sector	12,400
	Buildings	10,000
	H2	9,700
	Sustainable Aviation Fuel	15,400
	Manufacturing	5,000

The package of energy tax incentives, grants, and other programs creates tremendous opportunities for job creation and economic growth.

From 2025-2035, the IRA is estimated to deliver **75,800 FTEs** across South Dakota—or around **6,900 jobs** per year.

Boosting Income

\$5 billion

in additional income for South Dakotans

Promoting Spending in South Dakota's Economy

\$20 billion

of spending resulting from investments in American energy infrastructure
