

Wyoming

GROWING WYOMING'S ECONOMY

Clean energy investment is estimated to add **\$9 billion** to the state's economy from 2025-2035

Due to federal programs and clean energy tax credits, a new report—commissioned by ACP and conducted by ICF—estimates the American energy industry will deliver significant economic growth and job creation to Wyoming.

2025-2035 Forecast for Wyoming

Delivering Jobs

61,300 FTEs¹

● Transportation	21,400
● Power Sector	20,100
● Buildings	4,300
● H2	8,300
● Sustainable Aviation Fuel	3,900
