

## Clean Power on the Hill: Attendee Social Press Kit

We encourage you to post about Clean Power on the Hill (CPOTH) on social media by sharing photos of your Hill meetings. Use the **hashtag #CPOTH26** and tag ACP at **@USCleanPower** on X, Instagram, and Facebook and **@American Clean Power Association (ACP)** on LinkedIn. We'll reshare the best posts in real time!

Additionally, please email any photos to [Kenneth](#) or [Cameron](#), to potentially be used in ACP's social media posts.

**Event Hashtag:** #CPOTH26

### Sample Social Copy:

#### April 15: Attending Clean Power on the Hill

- **IG/FB/LinkedIn:**
  - Today I'm in Washington with hundreds of American clean energy workers, manufacturers, and developers for Clean Power on the Hill. We're here to tell the story that doesn't get told enough: clean energy is one of the most powerful economic engines in America right now — good-paying jobs, homegrown manufacturing, and reliable power being built in

communities across the country. Proud to be part of it. @American Clean Power Association (ACP) #CPOTH26

- DC is buzzing with clean energy today. I'm on the Hill with @USCleanPower alongside hundreds of American clean energy workers—manufacturers, developers, and operators — making the case for an industry that's revitalizing communities and powering America's future. #CPOTH26
- **X:**
  - On the Hill today with @USCleanPower. American clean energy is powering communities and creating good jobs across the country. Proud to be here telling that story. #CPOTH26
  - In DC today with @USCleanPower and hundreds of American clean energy workers. 200 manufacturing facilities. 38 states. 122,000 good-paying jobs — and growing. This is American manufacturing. #CPOTH26

#### **April 15/16: Thanking the MOC office**

- **IG/FB/LinkedIn:**
  - Thank you [to the office of] [Senator / Representative Name] for meeting with me today as part of @USCleanPower's Clean Power on the Hill. Clean energy manufacturing is creating good-paying jobs and delivering reliable, affordable power in communities like ours — and it was great to share that story directly. #CPOTH26
  - Thank you [to the office of] [Senator / Representative Name] for your time today. I spent the day on the Hill with @USCleanPower talking about what American clean energy means for our economy and our communities. This industry is growing, and the opportunity ahead is real. #CPOTH26
- **X:**
  - Thank you [to the office of] [Senator/Rep Name] for meeting with us today. Clean energy is creating jobs and powering communities across America — glad to share that story. @USCleanPower #CPOTH26
