

ACP CLEANPOINTS Program & Booth Selection Process

Effective for OMS 2027, scheduled to take place February 23-25, 2027, in Long Beach, CA.

Summary of the process :

- Exhibiting companies for OMS 2026 have the opportunity to participate in the 2027 Exhibit Elevation Program, which allows them to select their booth location first for an additional \$850.00 per 10x10 booth (100 sq. ft.) and enhanced online profile listing. ACP will reach out to all partners **by January 22, 2026**, to allow them to participate and select their booth first. **Note that current ACP members were prioritized. **
- The Exhibit Elevation Program booth selection process is slated to conclude on February 18, 2026, and ACP will continue down the list in order of CLEANPOINTS (beginning **February 19, 2026**). After the Booth selection process has concluded, all booths will be sold on a first-come, first-served basis. The CLEANPOINTS booth selection process is slated to conclude no later than **Friday, February 27, 2026**.
- Once the application is submitted and the booth is selected, deposits are due and non-refundable upon signing. An invoice will be issued upon signing, and no benefits will be deemed secure until payment is received. The next 25% will be due on October 1st, 2026 (50% must be submitted by October 1st, 2026), and the final payment is due by December 15, 2026. Refunds will not be provided after the payment deadlines. **Deadlines are subject to change each year**

What are CLEANPOINTS?

Introduced in 2025, exhibiting partners have the opportunity to participate in the [Exhibit Elevation Program](#) to select their booth first for an additional \$850.00 **Note that current ACP Members will be prioritized.**

Once all Exhibit Elevation Partners have selected their space, ACP Event Sales Team will then reach out to all remaining partners in order of CLEANPOINTS allotment.

ACP will determine each partner's allotment of CLEANPOINTS as follows.

All exhibiting partners who participated in the previous year's OMS Conference (2026) will earn **1 point for every 10 x 10 square foot** purchased.

The following categories of points will be added to all previous year's exhibiting partners. Any companies that did not exhibit will be able to select once all previous year exhibiting partners have had a chance to select.

- Partners who exhibit at other ACP conferences in 2026 will receive an additional **5 points** per conference they exhibit at in the current calendar year.
- All partners who sponsored in the previous year (2026) will earn **1 additional point** per \$5,000 spent.
- All partners who are current ACP Members will earn an additional allotment of **10 points**. *Note that you must be a current ACP member with all dues paid for the current year in order to receive these points.*
- *The deadline to accumulate CLEANPOINTS for OMS 2027 is January 16, 2026.*

Deduction of points and penalties:

Exhibitors who vacated or dismantled their booth prior to the show closing in 2025 will lose 5 points towards the **2027 tally**.

Exhibitors who do not abide by show rules and regulations (regarding line of sight, height restrictions, etc.) will be notified and asked to adjust. If exhibitors failed to adjust (in 2025), they will **lose 5 points towards the 2027 tally**

Exhibitors who do not submit their proof of insurance by the deadline in 2025 will **lose 10 points towards the 2027 tally**

Exhibitors who have outstanding balances for previous ACP conferences (for exhibitions, sponsorship, or meeting rooms) will not be able to secure a booth for the upcoming conferences. Exhibitors who violate the anti-harassment policy ([linked here](#)) will lose all points and will not be invited to exhibit at future ACP events.

How does ACP keep the booth selection process fair?

CLEANPOINTS from the previous calendar year are calculated and assigned before we begin booth selection for the following year. ACP Show Management then proceeds in order based on total clean points assigned (highest to lowest), as explained above.

Upon space assignment, a booth confirmation will be sent to exhibitors with additional details.

If two exhibiting companies have the same number of points, ranking will be determined by the date that the application was received.

Note that if you are unresponsive for up to 1 week, ACP will be required to continue down CLEANPOINTS list to accommodate all exhibitors in a timely manner.

Booth Selection Process & Guidelines

1. APPLICATION SUBMISSION

Applications must be submitted by the designated deadline to participate in the booth selection process. Exhibitors must complete the application and indicate their top booth options (these preferences/choices are not guaranteed). After the Booth selection process has concluded, all booths will be sold on a first-come, first-served basis.

2. HOW ARE MY CLEANPOINTS DETERMINED?

You will be allotted a certain # of CLEANPOINTS (see above), based on previous participation as an exhibitor at OMS and the size of your booth space at each show.

Exhibitors are awarded additional points for the following:

- Being a current ACP Member (all dues must be paid to receive the points)
- Sponsoring the previous year (1 point per \$5,000 spent)
- Exhibiting at other ACP Conferences in the respective calendar year.

3. BOOTH SELECTION SCHEDULE AND PROCESS

All exhibitors must submit applications promptly or by the designated deadline. Your booth selection is assigned according to the number of clean points you have. When creating the schedule, the exhibitor with the highest # of CLEANPOINTS will be the first to select their booth, and then assignments move down the list accordingly. Exhibitors have the opportunity to participate in the Exhibit Elevation Program, which allows them to secure their booth sooner at an additional cost.

Exhibitors will be notified by email with the application and guidelines, and then the ACP Event Sales team will approve their booth when we reach your ranking on the

CLEANPOINTS list. Note that your booth choice(s) are not guaranteed. If the booth you noted on the application is available, we will assign you to that option or the next best available option if it is not available.

For those who have questions and prefer to discuss with the ACP Event Sales Team, we will schedule an appointment date/time to discuss. For those who submit an application with an available booth choice via Map Your Show (MYS), a meeting is not necessary, and the ACP Event Sales Team will approve and confirm via email.

If applicable, on your assigned day/time for booth selection, you will have 15 minutes to confirm your booth space. Please make sure you or an alternate contact is available to meet.

If you miss your time to select a booth or if you do not submit your application by the deadline, the ACP Event Sales team will follow up with a reminder and will continue down the CLEANPOINTS list. *Note that a signed application and 25% non-refundable deposit are required upon signature, and we cannot hold booths for those missing the application or deposit.*

Booth space selections are reflected in real-time, so once a booth has been confirmed, it will no longer appear as available (colored in blue) on the MYS floor plan. It is recommended that you review the floor plan before your scheduled selection time to see what booths are still available.

4. SPACE CONFIRMATION

Once the booth has been assigned, the ACP team will follow up with a confirmation email and an invoice that includes the payment schedule. Any changes to the invoice or company details can be requested at this time.

5. BOOTH CHANGES AND CANCELLATIONS

During the booth selection period, exhibitors may request to change their booth location at any time as long as the location is available at the time the request is processed by ACP. After booth selection, any changes to the size of the booth are subject to the fee adjustments outlined in the show rules and regulations.

If you wish to cancel your booth once your booth space has been confirmed by ACP, you must submit a notice of cancellation to ACP Show Management at: partnerships@cleanpower.org. *Please note that a 25% non-refundable deposit is required upon contract signing.*

All exhibitors must submit a 25% non-refundable deposit upon signing the application to secure their booth. Cancellation/reduction requests submitted after the early-bird reservation date (June 30, 2026 for OMS 2027) are subject to a cancellation fee of 50% of the cost of the booth space.

The exhibitor shall not be entitled to any refunds and shall be responsible for paying 50% of the original exhibitor cost, subject to offset by any non-refundable deposit already received by ACP. Cancellation or reduction requests submitted after December 15, 2026, are subject to a cancellation fee of 100% of the booth space cost. The exhibitor shall not be entitled to any refund of exhibitor fees and shall be responsible for paying 100% of the exhibitor cost, subject to offset by any non-refundable deposit already received by ACP.

The exhibitor acknowledges that should exhibitor cancel or reduce their booth space as set forth above, ACP will suffer actual damages, the amount of which is uncertain and would be impractical or extremely difficult to determine, and therefore, the non-refundable deposit and cancellation fees set forth above shall constitute liquidated damages which the parties agree are reasonable under the circumstances.

Note that if your membership status changes before January 10, 2027, we will adjust the booth rate accordingly and send an updated invoice.
