EXHIBIT ELEVATION PROGRAM

The location of your booth matters.

For the third consecutive year, ACP is leveling the playing field to allow all partners the opportunity to opt in for early booth selection—regardless of your history exhibiting at ACP events or at our Operations, Maintenance & Safety (OMS) specifically. In the last two years, an overwhelming number of exhibitors participated in this new program, which allowed them to select a prominent booth location!

The **OMS Exhibit Elevation Program** provides exhibiting companies with the opportunity to select a premium booth location before booth selection begins, for an additional \$850 (per 10x10 booth).

Whether you're new to the industry, looking to make a bigger splash this year, or just want to reduce uncertainty during your booth selection process, this new program will allow greater flexibility and enhanced event experience for all event attendees. Details below!

How to Take Advantage of this Opportunity
