

United States

GROWING THE AMERICAN ECONOMY

Clean energy investment is estimated to add **\$1.9 trillion** to the nation's economy from 2025-2035

Due to federal programs and clean energy tax credits, a new report—commissioned by ACP and conducted by ICF—estimates the American energy industry will deliver significant economic growth and job creation to the nation.

2025-2035 Forecast

Delivering Jobs

13.7 million FTEs¹

● Transportation	Over 5 million
● Power Sector	Over 2.3 million
● Buildings	2.6 million
● H2	Over 380,000
● Sustainable Aviation Fuel	Nearly 730,000
● Manufacturing	2.7 million

Clean energy tax incentives, grants, and other programs create tremendous opportunities for American job creation and economic growth.

From 2025-2035, clean energy investments are estimated to deliver **13.7 million FTEs** across the country – or around **1.2 million** jobs per year.

Boosting Income

\$846 billion

in additional income for Americans

Promoting Spending in the Economy

\$3.8 trillion

of spending resulting from investments in American energy infrastructure
